

## Small Group Evaluation

Dear small group member:

Small groups provide an excellent setting for heart-to-heart interaction with God's Word and with one another—a potentially great environment for experiencing significant life change. Hopefully, your small group experience has been a positive one this year! We invite you to share some of the ways God has used your group to bless your life, and to help the leadership assess needs and set goals for the remaining year.

After you have completed this evaluation, please return it to your group leader or send it to the church office. Thanks for your help!
